## Kiera Mills

### Tampa General Hospital Tampa, Florida

Kiera Mills has been on the frontlines of the COVID-19 pandemic from the start. Assigned to the hospital's emergency department, Kiera overcame her fears and rose to the occasion.

She quickly learned the proper PPE and terminal cleaning protocols and became one of the hospital's top EVS professionals. She takes the time required to thoroughly clean and disinfect all of the rooms and has also completed the most COVID-19 discharge rooms in the department.

"I am beyond proud of the work and courage she has shown," said Glenda Wright, director of Environmental Services & Pest Control. "She is living proof that not all heroes wear capes – some wear scrubs!"
