## Michael Scott

### Stanford Health Care Stanford, California

“Michael Scott is our department’s superstar,” said Bhushan Shelat, director of Environmental Services at Stanford Health Care.

Michael works on the hospital’s dock and manages all waste streams, including on-site biohazardous waste treatment systems. He is also the EVS department’s brand ambassador, positive, optimistic and a true team player, who has played a critical role during the pandemic, ensuring that all waste streams are processed appropriately and in a safe and secure manner.

“Michael reminds people to treat every container as if it’s from a COVID patient,” Bhushan said. “He takes pride and ownership in ensuring a clean and safe environment for all. Michael is a model employee and his actions add tremendous value to the institution’s mission and vision every day.”
