Kimberly Angeles

Saratoga Hospital Saratoga Springs, NY

At the height of the COVID-19 pandemic, Kimberly Angeles was one of the first EVS workers willing to help clean and disinfect those rooms. She would undertake the thorough and time-consuming cleanings in full PPE and a Powered Air Purifying Respirator.

“The cleaning was intense and the work very physically demanding,” said Benjamin Kenyon, EVS supervisor, Saratoga Hospital. “Kim was right there, ready to learn and help. Despite the stress and pressure of those weeks and even the current pressures, she is always here. She is my main trainer for new employees, and she is constantly helping her coworkers in and outside of work.”

And, Benjamin added: “She comes to work each day ready to go, with a smile on her face.”
