

Skill.Set.GO.™

Skill.Set.Go.™ is a skills-driven training subscription for the health care environmental services workforce

New resource from AHE, the recognized authority in training and educational content, helps health care facilities improve environmental services performance, close skill gaps and address workforce needs in a high turnover environment.

- Accessible and engaging standardized foundational training frees up bandwidth for departmental leaders to focus more on the implementation of the EVS department strategy
- System-level, subscription-based training at a price more affordable than an in-house LMS
- Take the guesswork out of competency training compliance and reporting – all learner participation is documented and available to provide to surveyors

Top Benefits

Convenient on-demand access to expert instruction on your team's schedule.

Increase team engagement, **improve performance**, and ensure standards.

Track progress for each team member and get real-time compliance reporting.
