

## MISSION

To advance members' ability to establish and maintain care environments that are free of environmental surface contamination and that support safety, service, and efficient and effective operations.

# Strategic Plan

**AHE will be the preferred professional organization for health care and environmental services.**

- Strengthen industry visibility and advocacy
- Enhance member value & engagement
- Foster professional growth and workforce development

**AHE resources empower EVS teams in driving measurable improvements.**

- Enhance patient safety, infection prevention, and regulatory compliance
- Strengthen workforce competency and engagement
- Advance evidence-based practices

**A career in EVS will be recognized as a valuable and critical role in health care.**

- Increase professional visibility and recognition
- Strengthen career pathways & development
